

# 9FT 416L SMART RGB STRING LIGHT TREE

## Operation and Safety Instructions

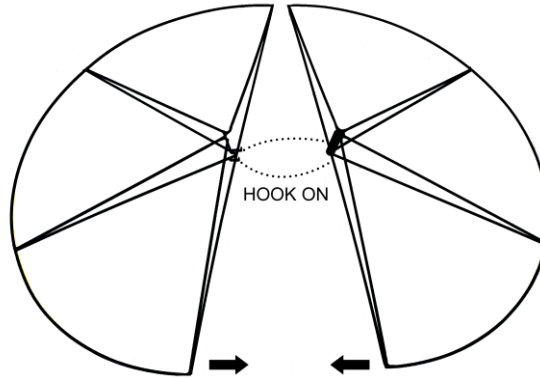

- FOR INDOOR AND OUTDOOR USE -

PARTS:

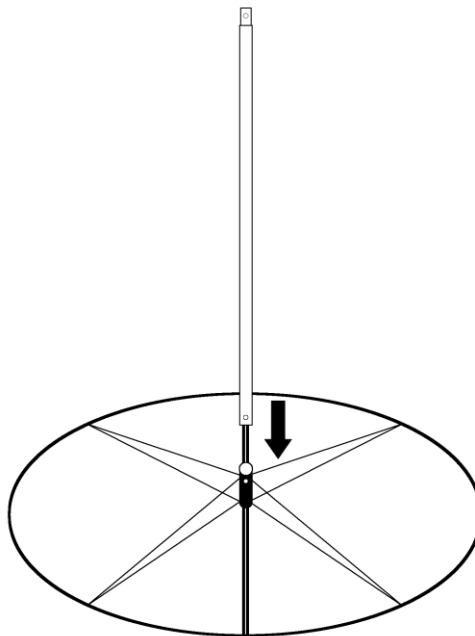

Part	Description	Illustration	Qty
A	Lower base		2
B	Pole		2
C	Tree Top		1
D	Ground stake		4

## **To Assemble**

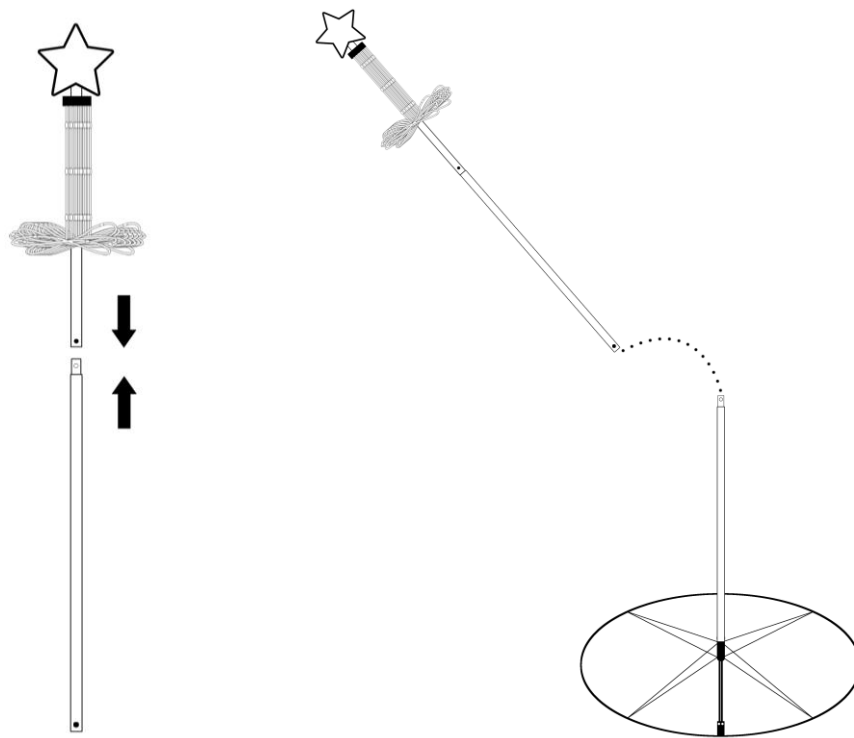

1. Carefully remove all the parts from the box and place them on a flat surface. Read the entire manual prior to assembly and identify all the parts included in the package against the parts list. Assembly of this product may require more than one person.
2. Hook each Lower base (A) together.

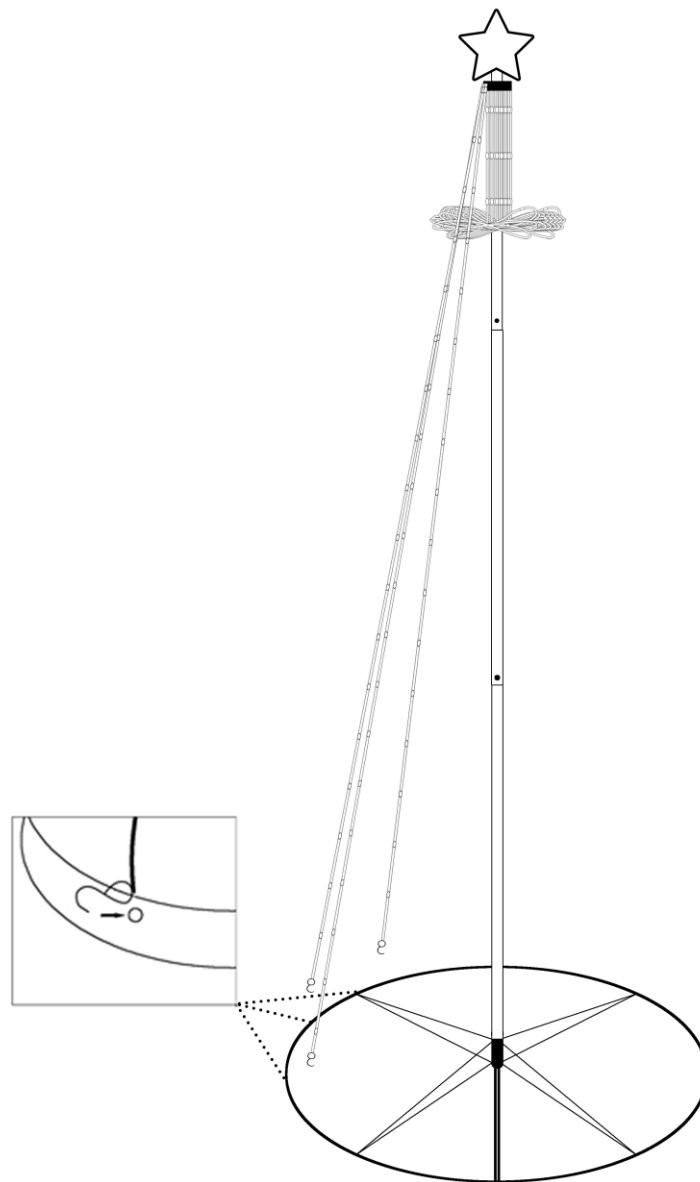

3. Insert the bigger tip of Lower pole (B) into the middle of the hole of Base (A). Snap the hole on the Base (A) with the cap on the Lower pole (B).

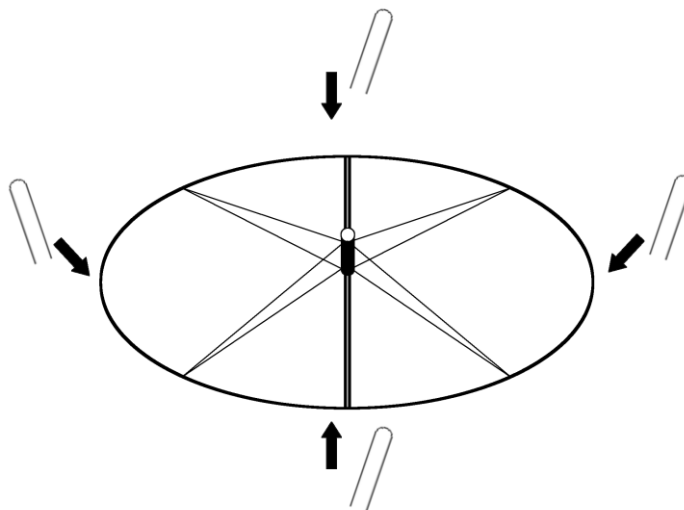

4. Connect the smaller tip of Middle pole (B) and the Tree top (C). Snap the hole on the tree top (C) with the cap on the Middle pole (B).
5. Put the connected Tree top (C) and Middle pole (B) onto the smaller tip of the Lower pole (B). Snap the hole on the Tree top (C) with the cap on the Lower pole (B).

6. Loosen the wrapped light strings and hook each string into the corresponding hole of Upper Base (C) one by one so that the Base and the strings of light are uniformly spaced.

7. Unleash the last string connected to the Control Box and hook into place and plug in your RGB tree.
8. Secure the base to the soft ground by fully inserting 4 stakes into the ground.

## **OPERATION**

1. To illuminate, plug the transformer into a standard 120-volt AC electrical outlet.
2. To switch functions, use the remote control or control box attached to the tree to achieve the functions.  
NOTE: Pull out the transparent film in the end of the remote control before using.
3. The control box cannot be blocked and the remote control should align with the control box when using it.

## **CARE AND CLEANING**

- (a) Carefully remove the product from wherever it is placed. This helps to avoid any undue strain or stress on the product, wire, and lighting connections.  
**NOTE:** This product should be placed on a flat and stable surface. It is not recommended to place somewhere where it cannot be well secured and stable.
- (b) Store the product neatly in a cool, dry location protected from sunlight. Tie up the individual light strings with the plastic ties connected to the lead wire for easy set up next season.
