## WARNINGS:

---

Cushions tend to shift in the box and become compressed during shipping; or under normal use, some cushion designs may compress more easily. If cushions appear to be compressed, wavy, or wrinkled, they can easily be “fluffed” by hand. Loose cushions can be removed and patted firmly by hand on all sides and edges until the appearance is improved. Fixed cushions can also be patted firmly by hand until appearance improves. After initial unboxing, allow 24-48 hours for cushions to fully rebound to their normal shape.

Do not allow children to play on or near this product.

---

## MAINTENANCE:

---

**Regularly check hardware and tighten if necessary**
