Certain statements in this release are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, and such statements are intended to qualify for the protection of the safe harbor provided by the Act. The words “anticipate,” “estimate,” “expect,” “objective,” “goal,” “project,” “intend,” “plan,” “believe,” “will,” “should,” “may,” “target,” “forecast,” “guidance,” “outlook” and similar expressions generally identify forward-looking statements. Similarly, descriptions of our objectives, strategies, plans, goals or targets are also forward-looking statements. Forward-looking statements relate to the expectations of management as to future occurrences and trends, including statements expressing optimism or pessimism about future operating results or events and projected sales, earnings, capital expenditures and business strategy. Forward-looking statements are based upon a number of assumptions concerning future conditions that may ultimately prove to be inaccurate. Forward-looking statements are and will be based upon management’s then-current views and assumptions regarding future events and operating performance, and are applicable only as of the dates of such statements. Although we believe the expectations expressed in forward-looking statements are based on reasonable assumptions within the bounds of our knowledge, forward-looking statements, by their nature, involve risks, uncertainties and other factors, any one or a combination of which could materially affect our business, financial condition, results of operations or liquidity.

Forward-looking statements that we make herein and in other reports and releases are not guarantees of future performance and actual results may differ materially from those discussed in such forward-looking statements as a result of various factors, including, but not limited to, the Covid-19 coronavirus pandemic, current economic and credit crisis, the cost of goods, our inability to successfully execute strategic initiatives, competitive pressures, economic pressures on our customers and us, the availability of brand name closeout merchandise, trade restrictions, freight costs, the risk that the company is unable to refinance or replace its $600 million five-year unsecured credit facility or amend the synthetic lease for its distribution center in Apple Valley, California as contemplated by the consent letters entered into by the company with respect to the credit facility and synthetic lease, the risks discussed in the Risk Factors section of our most recent Annual Report on Form 10-K, and other factors discussed from time to time in our other filings with the SEC, including Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. This release should be read in conjunction with such filings, and you should consider all of these risks, uncertainties and other factors carefully in evaluating forward-looking statements.

You are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date thereof. We undertake no obligation to publicly update forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any further disclosures we make on related subjects in our public announcements and SEC filings.
We remain laser focused on helping our customers navigate these challenging times by delivering outstanding value across our assortment. We are managing the business prudently, while working hard to build a stronger company and deliver on our commitments to our customers, associates, and shareholders.

Our outstanding team helped us to deliver results in line with the financial guidance we provided coming into the quarter. We managed costs tightly, made great progress on repositioning our assortment towards better bargains/closeouts and lower price points, and took important steps to enhance our balance sheet and secure our liquidity. We also brought inventories down materially versus Q1, putting us on track to right-size our inventory position by Q4.

The above adjusted selling and administrative expenses, adjusted selling and administrative expense rate, adjusted operating loss, adjusted operating loss rate, adjusted income tax benefit, adjusted effective income tax rate, adjusted net loss, and adjusted diluted earnings (loss) per share are “non-GAAP financial measures” as that term is defined by Rule 101 of Regulation G (17 CFR Part 244) and Item 10 of Regulation S-K (17 CFR Part 229). These non-GAAP financial measures exclude from the most directly comparable financial measures calculated and presented in accordance with accounting principles generally accepted in the United States of America (“GAAP”) store asset impairment charges of $24,105 ($18,149, net of tax).

Our management believes that the disclosure of these non-GAAP financial measures provides useful information to investors because the non-GAAP financial measures present an alternative and more relevant method for measuring our operating performance, excluding special items included in the most directly comparable GAAP financial measures, that management believes is more indicative of our on-going operating results and financial conditions. Our management uses these non-GAAP financial measures, along with the most directly comparable GAAP financial measures, in evaluating our operating performance.
